

your future at Shepherds College

Shepherds College is the country's leading three-year, post-secondary, educational program for individuals with intellectual disabilities.

That's who we are. But what's more important is who you are, where you want to go, and how we can help you get there. We invite you to further explore the possibility of attending Shepherds College. Start the discovery today.

contact us

We know you are going to have questions that come up as you think more about the possibility of Shepherds College. Contacting us is the best way to get answers for everything you are curious about. We look forward to any opportunity to discuss what makes our campus so remarkable.

transforming your life

— start the discovery —

discovering your abilities

— realize your potential —

Shepherd's College is a fully accredited, post-secondary program for students with intellectual and/or developmental disabilities (IDD). Throughout the three-year program we will help equip you to reach Appropriate Independence through the development of vocational, social and life skills. We define Appropriate Independence™ as supported self-sufficiency, aligned with your individual strengths, and guided by Christian values. Started in 2008 and located in Union Grove, Wisconsin, Shepherd's College has served students from 33 states and 8 foreign countries.

The Shepherd's College campus offers a safe, supported and structured environment for students to develop socially, physically, and spiritually. Students develop life skills by transitioning through three phases of the Student Life program. The dorms provide the greatest degree of structure and support allowing students to successfully transition from home to campus. The halls and apartments present opportunities for increased levels of independence to prepare students for life after college.

Each year, students are invited to participate in athletics, clubs, regular off-campus outings, church and service projects. These activities help students develop leadership skills, make new friends, experience new things, and contribute to the community.

At Shepherd's College, students choose from one of three specialty majors: Culinary Arts, Horticulture and Technology. The following are a few examples of what students learn in their chosen field of study:

culinary arts & horticulture technology

Culinary Arts

- General Cooking Procedures and Sanitation
- Baking and Pastries
- Knife Skills/Safety
- Nutrition/ Special Diet

Horticulture

- Vegetable Gardening/Aquaponics
- Garden Center Operations and Floral Retail
- Greenhouse Production Operations
- Landscape Maintenance Operations

Technology

- Professional Office
- Software Development
- IT Support
- Digital Design

General educational components include functional academics, spiritual life, daily living skills and social/emotional skills. Our aim is that each Shepherd's College graduate is equipped to secure gainful employment in their chosen field of training.
